PROFESSIONAL SUMMARY

Data & IT professional with a Cloud Computing background and Google Data Analytics Professional Certificate, experienced in transforming raw data into reliable insights for operational and strategic decision-making. Hands-on experience in data collection, cleaning, validation, analysis, KPI development, dashboarding, reporting, and monitoring & evaluation through the PADESCE national project, complemented by IT management, software development, database, and digital solutions experience at Naumur SARL. Proficient in Excel, SQL, Power BI, Python, web technologies, and cloud computing, with practical experience developing data-driven and AI-oriented solutions to improve processes and organizational performance.

WORK EXPERIENCES

Head Of IT Department

NAUMUR Sarl, Yaoundé | Nov. 2025 – Jun 2026

- Data Analytics, Software Development, Artificial Intelligence, Cloud Computing
- As Head of the Data Unit at NAUMUR, I oversee the collection and organization of data, ensuring its quality, accuracy, and reliability. I transform data into dashboards, reports, and key performance indicators (KPIs) that provide actionable insights and support strategic decision-making. In parallel, I ensure data security and compliance while optimizing data tools and processes. I also support teams in the effective day-to-day use and exploitation of data.

Head of Data Department

NAUMUR Sarl, Yaoundé | Jun 2026 - Present

- Contributing to the PADESCE national project as a Data Analyst, focusing on data collection, cleaning, preprocessing, analysis, and reporting for monitoring and evaluation. Develop dashboards, KPIs, and reports to track program performance and support data-driven decision-making. Ensure data quality, accuracy, and reliability across multiple projects, including CGA, PAAM, and Karaavel.

EDUCATION

Bachelor of Technology - BTech, Computer Science Engineering

Institut Universitaire de la Côte, Douala
Graduated: 2025

Advanced Level, SCIENCES

G B H S Bojongo, Douala
Graduated: 2022

Ordinary Level, SCIENCES

G B H S Deido, Douala
Graduated: 2019

CERTIFICATIONS & COURSES

- Google Data Analytics Professional Certificate
- Google AI Professional Certificate
- Badge of Innovating with Google Cloud Artificial Intelligence
- Ethics in the Age of Generative AI
- AWS Educate Introduction to Generative AI - Training Badge
- AWS Educate Machine Learning Foundations - Training Badge
- Adobe Certified Professional in Graphic Design & Illustration Using Adobe Illustrator
- IoT (Internet of Things) Wireless & Cloud Computing Emerging Technologies
- Excel Fundamentals for Data Analysis
- Get Started with Looker Skill Badge
- Microsoft Office Specialist: Excel Associate (Office 2019)

PROJECTS

PADESCE

Contributed to the PADESCE national project as a Data Analyst and Monitoring & Evaluation professional, working on data collection, consolidation, validation, cleaning, preprocessing, analysis, KPI monitoring, dashboards, and reporting. The project involved transforming data from training programs into reliable information to monitor performance, identify trends and gaps, and support evidence-based decision-making.

AI Credit Risk Analysis and Credit Scoring platform

Developed an AI Credit Risk Analysis and Credit Scoring platform using Python, Machine Learning, FastAPI, React, and PostgreSQL. The solution includes data preprocessing, feature engineering, machine-learning-based credit-risk prediction, credit scoring, authentication, dashboards, prediction history, and automated reporting, combining data analytics, AI, software development, databases, and cloud technologies.

ENTERPRISE MANAGEMENT SYSTEM

At Naumur SARL, contributed to digital and IT initiatives including Perle, a personnel and remuneration management solution, as well as data management and internal digital solutions. I have also worked on concepts and prototypes for task and personnel management, school management, enterprise intranets, digital archives, and AI-enabled business applications, applying full-stack development, database management, process automation, and cloud computing principles
